

## **Autumn Theme Discussion Sheet**

In the Autumn term, our theme will be:  
We will be learning about

It is important to us that, although we will cover the statutory curriculum, we also incorporate the ideas and interests of our school community.

Please complete this with your child, suggesting anything that you or your child would like to **do** or any ways in which **you can be involved.**

Although we cannot guarantee to include everything, we will take on board and incorporate as many ideas as possible during our theme.

What do you want to **do** during our theme?

*Include your ideas in any way you like: you can write a list, create a mind map, draw pictures or write key words.*

**Parents/carers:** are there any areas that you can help us with/share your interest in the subject/bring in any specialist interests/share any resources?

*Don't worry if you don't have a specialism/interest in this area – this sheet is an opportunity for you to be involved as and where you feel able.*
